

Captain Career Common Core Course (C5)

The *Captain Career Common Core Course* (C5) is a requirement for AC and RC officers attending either an AC or RC version of the CCC beginning on or after 01 Jun 07. The C5 consists of common core tasks selected by the US Army Training and Doctrine Command (TRADOC) for conversion to distributive learning (dL). The dL is web based interactive multimedia instruction (IMI) that students are to complete independently and self-paced. Completion of C5 is not a prerequisite for attendance at either the AC or RC versions of the ECCC, but is a requirement for graduation. Officers can begin, and potentially complete, the C5 prior to attending the resident phase. Officers are eligible to enroll in the C5 upon completion of the Basic Officer Leadership Course (BOLC III) and promotion to 1LT. Officers must enroll separately in the C5 through ATRRS.
